

GAZETTE GLEANINGS.

Evans, the East side artist, yesterday photographed the First National Bank.

A party in honor of Miss Nettie Crane was given at the residence of Hon. M. A. Otero, last night.

Fitzgerald sold over sixteen hundred dollars worth of lots yesterday. Fitz continues to rustle.

Dan Morrow is now operating his shooting gallery in the stand formerly occupied by Mr. Stocks.

The brick work of the third story of the new hotel is finished. The hotel will now soon be ready for the roof.

J. W. Rumsey has opened up a new butcher shop on the south side of the plaza, adjoining Stern's store.

No mail from the south yesterday. This makes two days in succession. We begin to feel anxious about what is going on in the southern country.

John Flynn, who is an excellent territorial artist has opened a barber shop in the national hotel. He has ordered a complete outfit for the business.

A passenger train left for the south this morning at 2 o'clock. There were about one hundred passengers aboard. They will be transferred around the washouts.

Charles Blanchard is building a sidewalk in front of his buildings which were cut off to widen the street. Since the new front has been put in these buildings they add much to the appearance of Bridge Street.

Several persons have mistook the advertisement offering for sale the grocery of A. J. Bell, on Center street, for Bell & Co. the plaza grocers. The latter have no intention to sell out. They are fixtures and have come to stay.

The Trinidad Times should be more careful about crediting articles taken from the GAZETTE to other territorial papers. Mistakes are liable to happen but when they are persisted in they grow monotonous.

S. S. Mendenhall is now at the washout on Glorieta Mountain with eight teams to transfer passengers. The washout is extensive and there has been but little transferring done as yet. The wagon road was badly injured.

A Mission School will be held during the ensuing year, beginning with September, in the Presbyterian Mission buildings on the West Side. Miss M. H. Patten, of Little Rock, Ark., has been commissioned by the Presbyterian Board as teacher, and will arrive in Las Vegas next week.

E. N. Ackley of the Consolidated Prospecting Company of this city, a company very recently organized, leaves here for the East to-morrow for the purpose of forming companies to work and develop their property. If the principals of the company are carried out as planned they cannot help but be eminently successful.

The County Commissioners and street railway company have determined to put in a four truss bent in the river bridge and remove the remainder of the stone pier that still remains to block the free flow of the water. Superintendent Thornton yesterday perfected the drawing of the bent and submitted it to the railway company for its approval. If this plan is carried out the railway track will be in the middle of the bridge and a wagon road on each side. The bridge will be much more secure.

District Court.

Yesterday the case of the N. M. & S. P. Railroad vs. John Dougher was tried. This was a suit on a promissory note given to the railroad company on the consideration of the establishment of a depot of said road at Las Vegas, to be payable at a certain time after the arrival of the first freight train. The question turned upon the point whether or not such a depot had been established at Las Vegas within the meaning of the note. The case was argued at length by the attorneys. The jury disagreed.

The case of the Maxwell Land Grant vs. Newton was tried to a jury in the afternoon. This was a case of ejectment brought by the plaintiff against defendant for occupying lands on the Maxwell grant. It was a question of title in the company to the lands. It was brought here by change of venue from Colfax County. The jury returned a verdict of guilty, against defendant, and also found for the plaintiff in the sum of \$300, being the amount due for rent of the premises for five years. The jury also found for the defendant in the sum of \$1,050 for improvements made upon the land.

The Grand Jury, among many other indictments, found four against Marino Leiba, for stealing, perjury and various other crimes. These will be likely to keep the gentleman locked up for a term of years, as bail will be hard to find. A large amount of business was transacted last night in clearing up after the juries had been discharged.

Judgment for possession of the land was given for the plaintiff in case of the Maxwell Company vs. Newton.

John Brown and Albert McLaughlin, against whom no indictments were found were discharged from jail.

The case of Longwill vs. Dawson & Chase was dismissed.

THE GRAND JURY.

Report as to the Proceedings and Doings this Term.

To the Hon. L. Bradford Prince, Chief Justice of New Mexico and Judge of the First District thereof:

Sir:—The Grand Jury of the county of San Miguel for the August Term, 1881, have the honor to make the following report:

The business of the jury was much retarded at first for want of information of any kind. Not a single case was reported to us from any Justice of the Peace in the county until next to the last day of the session when it was too late to procure testimony. No report of prisoners in jail awaiting trial was given us until Thursday of this week, and, although we examined and questioned the policemen and Deputy Sheriffs, but one of them could tell of any cases for investigation. They all agree that there are many cases of gambling and breach of the Sunday law, yet all say they cannot name any one.

We regret to report that there are indications of a great deal of lawlessness and disregard of the obligations of good citizenship in Las Vegas and the county generally, which we hope the effect of a few salutary examples and the influence of the law abiding will correct.

The Grand Jury are of the opinion that the buildings now occupied for Court House and county offices are entirely inadequate and insufficient, besides being badly ventilated and not in a healthy condition; and that one of the pressing necessities of San Miguel county is a new and commodious building suitably located for the purpose, with rooms properly constructed for the different offices, and that this recommendation be referred to the County Commissioners with request to take measures, as early as possible to secure the proper site, and to provide means for the building whenever the county finances will justify.

We have visited the county jail and find some complaint and some faults that perhaps ought to be corrected.

The roof leaks badly and could probably be repaired with small expense. The cells are not ventilated and it seems necessary that a change should be made in this respect. It is evident that the space is insufficient. The privy is in a disgusting condition and should be replaced at once and the nuisance removed, and it seems to us that it is a disgrace to San Miguel county to keep women not proved guilty and insane persons in such a filthy place, even if there is no better place for men who are not proven guilty of any crime, and it is the belief of this Grand Jury that the Sheriff is not to blame for this state of affairs.

The Grand Jury having appointed a committee to examine the books and accounts of the public officers of the county we submit herewith their report: [Report omitted on account of length and will appear in next issue.]

The jury further calls respectfully the attention of the Court and proper authorities to the delinquencies yet unsettled of funds in the hands of former sheriffs and collectors. We are aware that the subject has been repeatedly noticed, but are of opinion that it is not yet too late to save part at least of this delinquent fund.

The attention of the County Commissioners is hereby especially called to the repairing of the public roads of the county, and particularly in those precincts where the roads have to pass rocky and almost impassable places and that can only be repaired by means of implements to break up rocks &c.; it is suggested, therefore, that such precincts be provided for by the County Commissioners with the necessary implements in order to repair said roads.

The health and morals of the growing city of Las Vegas are badly contaminated by the filth and rubbish allowed to accumulate in the streets, and the licentious conduct of the bad characters that congregate here, encouraged by the want of proper local government. The remedy seems to be in an incorporated city government.

In some cases that have come before this jury it was impossible to reach a conclusion for want of evidence; if not improper we would recommend that such cases of which part testimony has been taken and made a memorandum of, might be turned over by the Attorney General to the next session of the Grand Jury for their action which we believe would facilitate their labor.

In conclusion, the Grand Jury would beg to express their thanks to the Court and the officers, especially Don Hilario Romero, Sheriff, for the courtesies extended to us while in the discharge of our duties.

Respectfully submitted,

L. P. BROWNE,

Foreman of the Grand Jury, August Term, 1881.

Pointers.

Mr. J. Reynolds yesterday received a deed to be signed by him, granting the right of way through a tract of 320 acres of valuable land that he owns near Pueblo, for the D. & N. O. railroad. This indicates that the determination of the D. & N. O. is to build to Pueblo. If this is the case, we must make a big effort to have it continued on down the mountains on the line of the local traffic according to our favorite route. It is easier for us to get it from Pueblo than from Denver.

PERSONAL.

R. Windest is over from Santa Fe. Mrs. W. F. Smith arrived from Washington, D. C., yesterday.

Charles P. Judd of New York is registered at the Depot Hotel.

Geo. H. Miller of Cameron, Missouri, is stopping at the Depot Hotel.

M. W. Mills, Esq., of Cimarron, came down yesterday to attend court.

Wm. McIntosh and W. S. Hopewell, of Denver, are registered at the St. Nicholas Hotel.

J. R. Collins and C. D. Grounds, of Wichita, Kansas, are stopping at the Summer House.

C. D. W. Dunlap is yet in town any one wishing to purchase a fine stock ranch will consult him.

Mr. Klattenhoff, of Jeffers & Klattenhoff, furniture dealers, came in from a purchasing trip East yesterday.

Phillip Holzman starts to-day for El Moro where he will hereafter be engaged in business. Sorry to lose him from Las Vegas.

The aged mother of Mrs. J. H. Ward arrived from Toronto, Canada, yesterday. The journey was a very long one for one of her age.

Mr. John Smith, with Maitland & Co. got off yesterday for Colorado Springs. Whether he goes to take charge of the store at that place.

Prof. Ashley and wife were expected in on yesterday's train. However, they disappointed their friends who gathered at the depot to welcome them.

Mr. A. P. Hodges, agent for Conover Bros. Musical Merchandise Establishment, Kansas City, has been in town several days in the interests of his house. He will take to-days train for the East.

Mr. and Mrs. Baldwin left for Gunnison on yesterday's train. Mr. Baldwin has accepted a position as engineer on the extension of the D. & R. G. They will likely make their future home in Colorado.

A. Levy, wife and Miss Millie Shafer, returned from the tie camp at Levy station yesterday. The ladies had accompanied Mr. Levy for a few weeks recreation in the mountains but the heavy rains of the last few days rendered it rather uncomfortable fishing and hunting.

Mr. A. B. S. Moseley and wife of Rome, Ga., are taking a look at Las Vegas. They have been on an extensive tour through the Northern States and have wisely concluded to see New Mexico before returning home. Mr. Moseley is the proprietor of the Rome Bulletin.

Mr. George Madeira, special traveling agent for the New York Mining Record called at the GAZETTE office yesterday. He has traveled in the West during his entire connection with that journal but this is his first trip to New Mexico and Arizona. He proposes to visit all the principal mines of these Territories and will write them up for the Record. We have no doubt but that his visit among our mines will result in much good to our Territory.

The Gas Works.

The gas works are working very successfully and the modus operandi of the manufacture of gas is quite interesting to the uninitiated. From the ovens where the gas is separated from the coal to the automatic gas main where the greater portion of the impurities are separated from the gas, and thence on through the wilderness of pipes to where it is safely stored for use, it is a perfect study of itself. In the automatic gas main the impurities take the form of a thick tar which is carried into the tar well outside of the building by means of a pipe. This tar is sold at fifteen cents a gallon and is quite useful for many purposes. The coke produced is of the best quality and is retailed at twenty cents per bushel. The consumption of gas at present by the city amounts to about 7,000 feet, and the amount of coal required to produce this amount is between 2,000 and 2,500 pounds. Fifty new gas meters were received last week. These are ready to be placed in the houses of those who may desire them. They have one thirty-light meter, and one forty-five light meter. The latter is capable of lighting 250 burners and is intended for the new plaza hotel when completed. The remainder are three and five light meters. The leakage from the pipes which cross the bridge amounts to about 3,000 feet per day, but it is unavoidable, as it is impossible to keep the joints tight enough to retain the gas while the pipes are continually jarred by teams crossing the bridge. This will be remedied soon, as it is the intention of the company to place the main along side of the bridge in boxing as soon as the pipe arrives. The pipe has been telegraphed for and is expected to arrive in a few days. There is considerable difficulty experienced by customers on this side of the bridge on account of the lack of pressure. This cannot be remedied until the new pipe arrives as the pipe now used across the bridge is smaller than the rest of the main and the unprotected and loose joints at this place also prevent a high pressure being put on. Mr. M. S. Hart, the efficient superintendent, informs us that a coal shed and offices will soon be erected, which will render things much more agreeable for all concerned. Everything is well managed.

CHURCH SERVICES.

ST. PAUL'S EPISCOPAL. Services will be conducted by Chief Justice Prince as lay reader, at St. Paul's Episcopal Church to-day, at the usual hour.

PRESBYTERIAN CHURCH. Services to-day at 11 a. m. and 7:30 p. m. Sunday School at 9:45 a. m.

BAPTIST CHAPEL. Preaching at the usual hours, morning and evening. Rev. J. E. Colenhour officiating. All are welcome.
